SUMMARY

Experience in operational documentation, including quotations, invoicing, and internal reporting. Strong technical skills in AutoCAD, Mastercam, and CorelDRAW, with basic knowledge of web technologies and Python.

EDUCATION

Bachelor of Engineering in Computer Science

SDMIT, Ujire • Ujire, Karnataka • 2023

EXPERIENCE

Operations & Accounts Coordinator

BrandWorks

February 2025 - Present, Kuwait

- Prepared and managed **quotations, invoices, and statements of accounts** using structured Google Sheets templates
- Maintained accurate **billing records** and internal financial documentation
- Coordinated with management to compile pricing, scope details, and client documentation
- Created **DXF cutting files** using **AutoCAD** for fabrication and production support
- Designed **signage logos and visual assets** using **CorelDRAW** and **Adobe Illustrator**
- Supported day-to-day operations through documentation accuracy and timely internal reporting

PROJECT

Poll Voting System

Thaniya Technologies

- Developed a web-based poll voting system using React.js, Node.js, Express.js, and MongoDB.
- Designed and implemented responsive frontend interfaces and connected them with backend APIs.
- Built backend logic for poll creation, voting, and secure data storage in the database.
- Implemented user authentication, role-based access, and real-time result visualization using Chart.js.

Detection of Malicious Attacks in the Internet

Academic Project – SDMIT, Ujire

- Developed a browser extension to detect and prevent access to malicious and phishing websites during web browsing.
- Analyzed existing datasets of safe and malicious URLs to identify patterns used for link classification.
- Implemented basic classification logic to evaluate web links in real time using the identified patterns.
- Designed warning alerts and automatic blocking mechanisms to stop users from accessing unsafe websites.

CERTIFICATIONS

Mastercam (CAM) Training

JTTF • 2026

- Trained in Mastercam for creating 3D models and generating CNC toolpaths for milling and lathe operations.

- Developed 2D and 3D machining programs for wood and basic metal components, including turning and contouring operations.
- Generated and exported CNC G-code from Mastercam for machining and simulation-based execution.

AutoCAD Proficiency Certification

Cadd Centre • 2025

- Trained in AutoCAD fundamentals, including engineering drawing standards, layer management, and layout setup.
- Created and modified 2D drawings and basic 3D models, with focus on drawing organization and file management.
- Applied advanced features such as blocks, libraries, object linking & embedding (OLE), and basic Visual LISP concepts.

Graphic Design Course – CorelDRAW & Adobe Illustrator

Color Code • 2025

- Trained in graphic design fundamentals, including color theory, layout design, and branding concepts.
- Created logos, signage artwork, and print-ready designs using CorelDRAW and Adobe Illustrator.
- Applied vector design techniques, color codes, and file preparation for production and fabrication use.

Full Stack Web Development

Thaniya Tech • 2023

- Trained in full stack web development fundamentals using HTML, CSS, and JavaScript for frontend interfaces.
- Gained basic experience with React for component-based UI development and Node.js for backend logic.
- Worked with MongoDB for basic database operations and understanding client–server data flow.

SKILLS

CAM & CNC: Mastercam, Swansoft SSNC

CAD & Drafting: AutoCAD

Graphic Design: CorelDRAW, Adobe Illustrator

Office & Documentation: Google Sheets, Google Docs, Google Slides, Microsoft Office

Programming (Basic): Python

Web Technologies (Basic): HTML, CSS, JavaScript, React, Node.js, Express, MongoDB

Data & Analytics (Basic): Power BI
